01 ABOUT SIGAL SMS

Your Benefits

- SIGAL SMS mainly supports physicians in private practice in the successful implementation of clinical studies with the help of structured processes
- This includes support in study acquisition and feasibility processes as well as support during the start-up phase (EC submission, contract and budget negotiation) and the actual study implementation (project management, patient recruitment, etc.)
- During all steps, we guarantee to keep the timelines as short as possible
- We significantly shorten the deadlines for study start and recruitment.
